

AUGUST DIARY

“ If we don't act against climate change, we will never be able to cover our children's healthcare bills, no matter how much money we leave for them.

... Mr. Pradip Burman, Chairperson, Mobius Foundation ”

4TH INTERNATIONAL CONFERENCE ON SUSTAINABILITY EDUCATION – ICSE 2022

The preparations for 4th International Conference on Sustainability Education are going on with great zeal. The conference is receiving an overwhelming response with respect to the session proposals, stalls, exhibitions, abstract submissions and registrations. The last date for abstract submissions has been extended till 15th August 2022.

A special plenary session is being organized on the theme **India@75 (Azadi ka Amrit Mahotsav)** to celebrate the 75 years of independence of India with respect to the progress that India has made in terms of environmental education and focus on the better ways of inculcating sustainability education in curriculum. Another plenary Session i.e., '**Agenda Sustainability – Viram (Population Stabilization)**' is being organized by Mobius Foundation in partnership with **Population Foundation of India, Population Balance** and others based on the need to make people aware about the most pressing difficulty in the way of achieving sustainable life styles, which is **Over Population**. **Mr. Pradip Burman** (Chairman, Mobius Foundation), **Dr. Poonam Muttreja** (Executive Director, Population Foundation of India), **Ms. Nandita Bajaj** (Executive Director, Population Balance) and **Mr. William Ryerson** (Founder and President, Population Media Centre) are some of the key panellists for the session.

Explore pathways to address current and emerging sustainability challenges...

Various sustainability practices will be followed throughout the conference

Many more eminent speakers will grace the conference and share their wisdom along with spreading word on sustainability. The confirmed speakers who will be present in person include **Mr. Eric Falt** (Regional director, UNESCO New Delhi Office), **Dr. Anil Gupta** (Founder of Honey Bee network, National Innovation Foundation), **Prof. (Dr.) Leela Pradhan** (Professor, Tribhuvan University, Nepal), **Dr. Hiroko Shibakawa** (UNESCO Chair on Research and Education for Sustainable Development) and many more. **Ms. Nandita Bajaj** (Executive Director, Population Balance), **Ms. Jane Goodall** (Ethologist and Environmentalist, Founder of the Jane Goodall Institute) and others will be joining virtually or through video message.

DIGITAL CAMPAIGN

Van Mahotsav

Duration: 6 Days

The literal meaning of Van Mahotsav is Tree Festival. Van Mahotsav is an annual tree plantation festival celebrated during the whole first week of July to create enthusiasm among masses for forest conservation and planting trees. MF observed a 6-day digital celebration on Van Mahotsav by sharing posters on social media.

Impressions - 28,406 | Reach - 26,626 | Engagement - 2,287

Population stabilisation is the motive of Project Aakar. Along with district Bahraich, project has now entered in its IVth Phase with three more high TFR districts of Uttar Pradesh (Shrawasti, Balrampur and Siddharthnagar). To roll on the current phase, the project was inaugurated on World Population Day (WPD) on 11th July 2022. As per the NHM guidelines, the theme of the WPD 2022 was "Parivar Niyojan Ka Apnao Upay, Likho Tarakki ka Naya Adhyay" - "परिवार नियोजन का अपनाओ उपाय लिखो तरक्की का नया अध्याय" and the same was followed in close coordination with District and Block level Health Officials. Various locations like CMO office, District Hospitals, CHCs and PHCs were chosen to mark the observance of WPD in close association with district health officials, Family Planning officials and BCPMs. The awareness module was through rallies, counselling, distribution of contraceptives, health talks and placing big size family planning awareness banners at place of high foot fall. The activities got good coverage in the National Newspapers like Amar Ujala, Hindustan and in many local level print and electronic media. Observance of WPD also mark the roll on of Project Aakar Phase- 4, and with the identification of 25 villages each in 8 identified blocks of all 4 districts (2 blocks in each district). The next step is to proceed ahead to conduct baseline survey and execution of village level activities.

GYAN ANANT VIDYALAYA (GAV)

Importance of Balanced Diet

"WHEN DIET IS WRONG, MEDICINE IS OF NO USE. WHEN DIET IS CORRECT, MEDICINE IS OF NO NEED."

A balanced diet supplies the nutrients that the body needs to work effectively. Without balanced nutrition, the body is more prone to disease, infection, fatigue, and low performance. Children who don't get enough healthy foods may face growth and developmental problems, poor academic performance, and frequent infections.

A healthy nutritious diet is an essential component in the growing and developing years of children. It aids in building a strong foundation in the child with regards to staying healthy and imbibing good eating habits right from childhood.

Therefore, proper nutrition for children is important as it sets the stage for them towards living a healthy and balanced life for the rest of their lives.

Learners of class 7th at GAV came up with a great idea of making their nutrition plates which helped them understand the value of eating a balanced diet. Students enjoyed every bit of the activity.

FUNNY SIDE

I've got no luck on finding any signs of intelligent life... How about you?
