

AUGUST DIARY

There is no research without action, and there is no action without research. The Mobius Foundation's 'Think Tank' will serve as a platform that champions solutions to our planet's greatest sustainability challenges. Our vision is for a balanced society in which people and the environment thrive; our mission is to expedite solutions that drive a global transition to sustainable economies and a stable climate.

... Mr. Pradip Burman, Chairperson, Mobius Foundation

5TH INTERNATIONAL CONFERENCE ON SUSTAINABILITY EDUCATION (ICSE) 2023

The preparations for the 5th International Conference on Sustainability Education are in full swing, generating immense enthusiasm and witnessing an overwhelming response in session proposals, abstract submissions, and registrations. The conference is being organized in collaboration with many esteemed national and international environmental organizations

The conference will feature multiple parallel thematic sessions focusing on crucial themes like **'Building a Multi-Country Civil Society Partnership to Increase the Resilience of Coastal Population in South Asia'**, **'Women in Conservation: Old Dilemmas, New Realities'**,

'Innovation for Sustainable Development Challenges', and **'Education Challenge to Embed Ecosystem Restoration into Educational Systems Worldwide'**.

One of the highlights of the conference is a special plenary session titled **'VIRAM The Agenda Sustainability-Population, Climate Action, and Sustainable Development: Role of Education and Empowerment'**, which aims to shed light on issues related to overpopulation and its impact on environmental sustainability.

With its diverse thematic sessions and eminent panellists/speakers, the conference promises to be a vibrant platform for sharing wisdom and insights on sustainability education.

YOUTH FOR EARTH 2023

The webinar **'From Vision to Action: Empowering South Asian Youth for Innovative Climate Solutions (SDG 13)'** was conducted on 22nd July 2023. It aimed to inspire and empower young participants from schools and universities in South Asian countries who are actively involved in creating ingenious strategies to tackle climate change. Esteemed speakers, **Mr. Samarth Khanna**, Barefoot Botanist and Landscaper, **Ms. Priya Prakash**, Founder of HealthSetGo, and **Mr. Rahul Khera**, Founder of Balancing Bits, shared their inspiring journeys and experiences on the significant efforts they are making to do their part in safeguarding the environment and mitigating climate change in their communities.

AAKAR

Capturing positive indicators of changing perception towards family planning

Project Aakar, in its mission to raise awareness about the benefits of having a smaller family, has noticed significant increase in male involvement in family planning decisions. While the number of male sterilizations is still relatively small compared to female sterilizations (244 female sterilizations), the fact that 27 eligible males out of 100 villages within the short span of this program have taken this step is a positive indicator of a changing perception towards family planning. This development emphasizes a shift in societal attitudes, as traditionally, family planning decisions have often been associated with women.

Highlights of the Month

Observation of World Population Day
Celebration of Khushal Parivar Diwas
Distribution of Morning after pills
NSV cases: 6
FST cases: 20

On ground team with NSV beneficiary (center)

GLOBAL ESG CONFERENCE AND PRITHVI AWARDS

Dr. Ram Boojh, CEO, Mobius Foundation participated in the Global ESG Conference and Prithvi Awards on 14th and 15th July 2023 at Hotel Shangri la Eros, New Delhi. He moderated a session on 'Environmental, Social, and Governance (ESG) landscape in India'. ESG has gained significant momentum globally as investors, regulators, and consumers increasingly consider ESG factors when making decision. The event was organized by ESG research foundation in partnership with Mobius Foundation.

GYAN ANANT VIDYALAYA (GAV)

Roots and Shoots Workshop

Gyan Anant Vidyalaya organized two days 'Roots and Shoots' workshop on 17th – 18th July 2023. The workshop was headed by resource persons from Jane Goodall Institute and STEM Ed Innovators. It provided transformative professional learning to improve pedagogy through equity frameworks, empathetic design tools, innovative pedagogical practices and critical discussions. Workshop ended with a commitment to make our planet a better place for our generations to come. Also with a pledge that pedagogies learnt will surely be implemented in their daily teaching and workplans. Dr. Poonam Minhas, Principal, GAV gave best wishes to all the participants.
